

# Steel Owl Statue

## Specification:

### Overall Dimensions

- Total Height: 200mm
- Head Diameter: 100mm
- Body Top Diameter: 75mm

### Components

#### Head Section

- Material: Steel with bronze/copper-colored finish
- Spherical shape with sculpted facial features
- Large circular eye cutouts with golden interior coloring
- Curved beak protrusion

- Magnetic attachment point at the base of the head
- Ear-like protrusions on sides

## Body Section

- Material: Steel with bronze/copper-colored finish
- Bowl-shaped design
- Decorative base with radiating support legs
- Magnetic attachment point at the top of the body to connect with the head
- Black interior finish

## Features

- Magnetic connection system between head and body components
- Metallic finish with warm bronze/copper tones
- Contrasting black interior
- Stable base design with decorative support legs
- Modern interpretative owl design combining functional and aesthetic elements

## Design Notes

- The head is detachable from the body via a magnetic connection
- Support legs provide stability and decorative element
- Finish appears to have a weathered/vintage quality
- Interior space can potentially serve as a decorative bowl or container
- Design combines both modernist and traditional decorative elements
